

Air Traffic Controller, Lead

Please send your resume and cover letter to jobs@mosaicatm.com

Mosaic ATM, located in the Northern Virginia / Washington, DC Metro area, is seeking talented full-time Air Traffic Controller, Lead to add to our great team. We're looking for people who are passionate about air traffic control, and just as passionate about being part of a great team. **This position can be in office, hybrid, or fully remote.**

Are you a seasoned professional with experience leading teams to solve complex system problems? Do you like working with other professionals to design modernized, efficient and scalable solutions? Are you an independent learner and a motivated self-starter who takes initiative to produce great results? If so, read on...

What you'll be doing:

- Coordinate the movement of aircraft to maintain safe separation in air and on the ground at terminal facilities.
- Coordinate all ground traffic at FAA ATCT airports including vehicles used by airport authorities, airlines, fire equipment, and system specialists that must have access to airport runways for maintenance and various other purposes.
- Primary and immediate concern is safety however must also work efficiently to minimize delays.
- Regulate airport traffic through designated airspaces; others regulate airport arrivals and departures.
- For Station Positions: Providing information to pilots on such matters as weather, air routes, navigational aids, and airport conditions before and during flight.
- For Terminal Positions: Issuing control instructions and advice to pilots in the vicinity of airports to assure proper separation of aircraft and to expedite their safe and efficient movement.
- For Center Positions: Controlling aircraft operating enroute along the airways to assure proper separation and safe and expeditious movement of such aircraft.
- This specialization also requires: Skill to arrange air traffic in patterns that assure maximum safety and minimum delay at points where such aircraft are "handed off" or transferred to other facilities or other sectors within the center; and Judgment to estimate when and where traffic congestion will build to a point that necessitates changing patterns, and to plan accordingly.

What you'll need to bring to this job:

- BS Experience: 16+ Years, PhD 11+, MS 14+, HS 20+15+ years' experience
- Excellent problem-solving skills
- Strong communication skills both verbal and written
- Flexibility to move between projects
- Responsible, Self-motivated, and innovative
- U.S. citizen or otherwise fully authorized to work in the U.S

Here's what WE bring to the table:

- Great people: Work with some of the best and brightest people in the industry
- Awesome benefits: Standard benefits like health, dental, and vision insurance, 401k plan, and paid vacation.
- Plus, some unique stuff like paid overtime, local telecommuting, and profit sharing
- Relaxed office environment: Relaxed atmosphere, jeans are the norm, flexible scheduling
- Amazing company: Competitive salaries with annual compensation reviews, generous bonuses, good morale with fun teambuilding events
