

Data Analyst, Journeyman

Please send your resume and cover letter to jobs@mosaicatm.com

Mosaic ATM, located in the Northern Virginia / Washington, DC Metro area, is seeking talented full-time Data Analyst, Journeyman, to add to our great team. We're looking for people who are passionate about data analytics, and just as passionate about being part of a great team. **This position can be in office, hybrid, or fully remote.**

Are you a seasoned professional with experience leading teams to solve complex system problems? Do you like working with other professionals to design modernized, efficient and scalable solutions? Are you an independent learner and a motivated self-starter who takes initiative to produce great results? If so, read on...

What you'll be doing:

- Collects, analyzes, and stores data and uses it to help clients or companies make better decisions.
- Responsible for, managing master data, including creation, updates, and deletion.
- Managing users and user roles. Provides quality assurance of imported data, working with quality assurance analyst if necessary.
- Commissioning and decommissioning of data sets. Processing confidential data and information according to guidelines.
- Helping develop reports and analysis.
- Managing and designing the reporting environment, including data sources, security, and metadata.
- Supporting the data warehouse in identifying and revising reporting requirements.
- Supporting initiatives for data integrity and normalization.
- Assessing tests and implementing new or upgraded software and assisting with strategic decisions on new systems.
- Generating reports from single or multiple systems. Troubleshooting the reporting database environment and reports.
- Evaluating changes and updates to source production systems. Training end users on new reports and dashboards.
- Providing technical expertise on data storage structures, data mining, and data cleansing.
- Ability to analyze existing tools and databases and provide software solution recommendations.
- Ability to translate business requirements into non-technical, lay terms. High-level experience in methodologies and processes for managing large scale databases.
- Demonstrated experience in handling large data sets and relational databases. Requires an understanding of addressing and metadata standards.

What you'll need to bring to this job:

- Education: BS, Experience: 5-9 Years, MS 3-7, PHD 0-4, HS 9-13
- Excellent problem-solving skills
- Strong communication skills both verbal and written
- Flexibility to move between projects
- Responsible, Self-motivated, and innovative
- U.S. citizen or otherwise fully authorized to work in the U.S

Here's what WE bring to the table:

- Great people: Work with some of the best and brightest people in the industry
- Awesome benefits: Standard benefits like health, dental, and vision insurance, 401k plan, and paid vacation.
- Plus, some unique stuff like paid overtime, local telecommuting, and profit sharing
- Relaxed office environment: Relaxed atmosphere, jeans are the norm, flexible scheduling
- Amazing company: Competitive salaries with annual compensation reviews, generous bonuses, good morale with fun teambuilding events
